

DuPuis Management Area Nature Lecture Series

All lectures begin at 9:00 am and take place in the conference room of the Visitors' Center

TO GET TO DuPUIS:

Take I-95 to the Blue Heron Blvd. exit and go west to the Beeline Hwy. (710). Go north on the Beeline to the junction for Hwy 76 (just before the bridge to Indiantown). Take a right and then a left onto 76. Go west on 76 for several miles to the Visitors' Center entrance at Gate 5.

Call 800/432-2045, x3339 for more information and to sign up (recommended)

September 27th: "The Wildflowers of DuPuis".

Join Alana Edwards, Ed & Training Coordinator for FAU's Center for Environmental studies and wildflower enthusiast, to learn the names, interesting facts and habitats of the beautiful fall wildflowers of DuPuis, and then view them on our guided wildflower walk! Bring your hiking shoes, water and lunch.

October 25th: "All about Barn Owls". Join us to learn all about the farmer's friend, the Barn Owl. Sharon Bennett, Education Specialist at DuPuis, will present information on their biology, eating habits, habitat, and the efforts of local farmers to encourage barn owls to live in the area.

November 22nd: "My Florida: A look through the Eyes of Henry Flagler". Stan Bronson, Executive Director of the Florida Earth Foundation, presents an interpretation of Henry Flagler's view of Florida. Take a look back into Florida's history with the help of Henry Flagler who was one of the most influential developers of early Florida.

**These lectures sponsored by
the South Florida Water Management District and coordinated by
Florida Atlantic University's Center for Environmental Studies.**
